

LOWER MAINLAND

LOCAL GOVERNMENT ASSOCIATION

2022 RESOLUTIONS DISPOSITION

ABBREVIATION KEY:

ER = EXECUTIVE RESOLUTION – RESOLUTION PROPOSED BY THE LOWER MAINLAND LGA EXECUTIVE

RR = REFERRED RESOLUTION – RESOLUTION REFERRED BACK FROM UBCM FROM THE PREVIOUS YEAR

R = RESOLUTION – RESOLUTION RECEIVED FROM THE MEMBERSHIP BY THE DEADLINE

OF = RESOLUTION OFF THE FLOOR OF THE CONVENTION

LOWER MAINLAND LOCAL GOVERNMENT ASSOCIATION EXECUTIVE RESOLUTIONS

PART 1 – EXECUTIVE RESOLUTIONS

COMMUNITY SAFETY

ER1 “Build Back Better” Funding for Critical Infrastructure

**Lower Mainland LGA Executive,
City of Abbotsford,
Fraser Valley Regional District**

Whereas the Province of BC completed a Preliminary Strategic Climate Risk Assessment for BC in 2019 that found that extreme weather events will continue to worsen across the province in coming years including heat waves and severe river flooding with extreme precipitation events continuing to increase toward 1 in 20 year events becoming 1 and 10 year events or lower;

And whereas the Minister for Public Safety and Solicitor General and Emergency Management BC have been working closely with the UBCM Flood and Wildfire Advisory Committee and local governments since mid-2019 to modernize the *Emergency Program Act* (EPA) to support local governments in responding and planning for disaster mitigation through phased-in legislative updates beginning in 2022:

Therefore be it resolved that UBCM ask that the provincial government, as part of the process of modernizing the EPA legislation, include robust and sustainable 'building back better' funding at 100 per cent as part of the first phase of the updated EPA legislation in 2022, and additionally consider enhancing the Community Resiliency Investment Program to include funding programs for flood related infrastructure improvement.

ON MOTION, was ENDORSED

**ER2 Raising the Disaster Financial Assistance (DFA) Cap Lower Mainland LGA Executive,
Fraser Valley Regional District**

Whereas the Province of British Columbia has not increased the limit on Disaster Financial Assistance Funding (DFA) for homeowner applications since 1996;

And whereas since 1996 the cost and value of property in the Lower Mainland has significantly increased, creating a gap that prevents property owners from reasonably overcoming catastrophic loss:

Therefore be it resolved that UBCM urge the Province of British Columbia and Emergency Management BC to increase the DFA limit on homeowner applications and consider implementing a framework that ties DFA compensation to BC Assessment values.

ON MOTION, was ENDORSED

**ER3 Emergency Operations Centre Reserve Funds Lower Mainland LGA Executive,
Fraser Valley Regional District**

Whereas regional districts are recognized as local authorities under the *Emergency Program Act* that must develop and implement emergency plans and other preparedness, response and recovery measures for emergencies and disasters;

And whereas regional districts are limited by the current funding model under the *Local Government Act*, requiring fiscal equivalence:

Therefore be it resolved that UBCM urge the Province of British Columbia and Emergency Management BC to provide regional districts with a dedicated Emergency Operations Centre Reserve Fund to facilitate the timely provision of emergency response when prior expense authorization is not practical and works are essential to save lives and protect property.

ON MOTION, was ENDORSED

PART 2 – REFERRED RESOLUTIONS

UBCM has referred late resolutions from the 2021 resolutions cycle for consideration by Lower

Mainland LGA members.

None received.

PART 3 – RESOLUTIONS RECEIVED BY THE DEADLINE

LEGISLATIVE

R1 Ethics Commissioner

City of White Rock

Whereas Bill 26 – 2021: Municipal Affairs Statutes Amendment Act (No. 2), 2021 does not require a local government to adopt a Code of Conduct for Council members;

And whereas many local governments in British Columbia cannot afford or do not have an independent non-partisan Ethics Commissioner to review and resolve allegations of misconduct:

Therefore be it resolved that LMLGA and UBCM call upon the provincial government to immediately create an Office of the Municipal Ethics Commissioner within the Ministry of Municipal Affairs that will:

- 1) respond to allegations of misconduct by an elected official of a municipal government and conduct an inquiry if warranted, and
- 2) review decisions imposed on an elected official of a municipal government and conduct an inquiry if warranted.
- 3) **Require local governments to adopt a “code of conduct” for council members.**

ON MOTION, as amended, was ENDORSED

COMMUNITY SAFETY

R2 Cost of Policing for in Small Communities

Village of Pemberton

Whereas the current funding model for RCMP services results in an immense financial burden for small municipalities when their population grows above 5,000;

And whereas a large proportion of RCMP time and budget goes to policing provincial highways that either run through or beside small communities:

Therefore be it resolved that UBCM request that the provincial government develop a more transitional funding model for RCMP services for small communities that would see incremental adjustments as a community grows beyond 5,000 and then beyond 10,000 and finally over 15,000 residents;

And be it further resolved that UBCM be involved in the development of the policy.

ON MOTION, was ENDORSED

R3 Reimbursement for Highway Rescue Services

Village of Pemberton

Whereas many small community volunteer fire departments and societies provide vital highway rescue services for vehicle crashes that occur on provincial highways;

And whereas reimbursement of costs under the current model leaves fire departments and local governments to absorb a significant part of the cost of providing the services:

Therefore be it resolved that UBCM request the Province revise the funding model to ensure that fire departments and societies are reimbursed for all highway rescue incidents to which they attend outside of the municipal boundaries;

And be it further resolved that UBCM request the Province to consider permitting fire departments to be reimbursed by the Insurance Corporation of British Columbia for highway rescue services at a rate determined by Emergency Management BC in consultation with the Office of the Fire Commissioner of British Columbia.

ON MOTION, was ENDORSED

TRANSPORTATION

R4 Re-Investing in EV Infrastructure

City of Port Moody

Whereas British Columbia and Metro Vancouver have shown exceptional leadership for electric vehicle (EV) uptake due in large part to generous incentives and early infrastructure upgrades;

And whereas the current level of EV ownership must increase to meet agreed-upon climate targets and cannot be considered sufficient at this time:

Therefore be it resolved that UBCM ask all orders of government (federal, provincial and local) and BC Hydro to increase investment in EV infrastructure and decrease user fees (including Step 2 EV exemptions) until EV uptake is sufficient;

And be it further resolved that the Government of Canada immediately make all necessary regulatory changes to allow for pricing EV charging by unit of energy.

ON MOTION, was ENDORSED

FINANCE

R5 Increase Funding for Public Libraries in the BC Provincial Budget 2023

City of Burnaby

Whereas libraries in British Columbia are largely financed by levies paid by local governments, and where provincial library funding has remained stagnant for the past 10 years;

And whereas public libraries are central to communities, providing equitable access to vital resources, including internet, computers, digital library tools, and in-person services from expert staff;

And whereas public libraries provide British Columbians with low-barrier services, that support job seekers and small businesses, that increase literacy in communities, that advance reconciliation with Indigenous peoples, and that promote equity and inclusion;

Therefore be it resolved that UBCM urge the Province to provide long-term sustainable funding for public libraries in BC;

And be it further resolved that the Province ensure that BC libraries will henceforth receive regular increases to provincial government funding in subsequent years.

ON MOTION, was ENDORSED

ASSESSMENT

R6 Assessing Vacant Lands to Support Housing for BC's Most Vulnerable

City of Vancouver

Whereas sadly thousands of British Columbians are homeless, sleeping in shelters, tents, and encampments, while many jurisdictions in Canada and down the West Coast have successfully triaged their homelessness crises with temporary, tiny shelter-type villages, as a transition to more permanent housing;

And whereas BC Assessment classifies property according to its use, and local governments apply a mill rate to the respective classification to determine taxes, while owners of vacant land are incentivized to reduce their property taxes by changing temporary use and assessment, for example by adding a community garden to be re-classified as a Class 8 Recreational;

And whereas properties assessed as Class 3 Supportive Housing integrate long-term housing units with on-site supports for persons who were previously homeless or persons who are at risk of homelessness are subject to special valuation rules by the provincial government that

reduce the assessed value of the property to a nominal amount, and have received funding from the government or a regional health board:

Therefore be it resolved that UBCM request the BC government to work with local governments to develop and fund an incentive for more readily and rapidly repurposing vacant land as temporary Class 3 Supportive Housing, to support the creation of emergency or ad-hoc housing or shelter with on site supports as a short-term use, and including tiny homes, navigation centres, portables, and/or modular housing.

ON MOTION, was ENDORSED

R7 Expanding the Mandate of BC Assessment Authority

City of Port Moody

Whereas all communities in BC are experiencing an ongoing housing crisis, placing an extraordinary pressure on local governments to provide affordable housing without having equitable access to the tools to properly assess project proformas in order to negotiate maximum affordable housing components in developments;

And whereas local governments recognize that reconciliation efforts must include housing discussions and to provide effective and equitable affordable housing, there must be collaboration with Indigenous Peoples:

Therefore be it resolved that UBCM ask the Province to expand the mandate of BC Assessment Authority to implement a province-wide shared service model to support municipalities in assessing the merits of rezoning and development applications to provide accurate pricing and development cost estimates and to provide analysis of opportunities for affordable housing and reconciliation with Indigenous Peoples.

ON MOTION, was ENDORSED

ENVIRONMENT

R8 Fossil Fuel Non-Proliferation Treaty

City of New Westminister

Whereas the most recent Intergovernmental Panel on Climate Change (IPCC) report in 2021, Code Red for Humanity, confirmed that without radical reductions in carbon emissions this decade, temperature rises above 1.5 degrees Celsius would be inevitable and irreversible and the credible threat of unstoppable, self-accelerating global heating;

And whereas climate crisis impacts are already being felt in our communities, including the summer heat dome, a pattern of hotter/drier summers, increased exposure to wildfire smoke, and increased frequency and intensity of heavy rain which impacts food security, infrastructure and the well being if the entire community;

Therefore be it resolved that UBCM and LMLGA formally endorse the call for a Fossil Fuel Non-Proliferation Treaty.

ON MOTION, was ENDORSED

R9 Protecting BC Coasts from Acidic Washwater Dumping

City of Vancouver

Whereas in order to mitigate sulphur air pollution from burning heavy oil, the maritime shipping industry employs exhaust gas cleaning systems (scrubbers) which result in a solution of concentrated acidic sulphates, metals, and other toxins, which cruise and cargo vessel traffic in Canadian jurisdiction annually discharge tens of millions tonnes of this acidic washwater directly into BC's coastal waters;

And whereas ocean acidification is of major concern to coastal communities, particularly those coastal communities encouraging shellfish harvesting, aquaculture, tourism, and commercial and recreational fisheries. Worldwide, authorities have variously banned or are moving to limit the dumping of scrubber wash in coastal waters;

And whereas on the Pacific Coast of North America, California and Washington have implemented stricter protections, and on March 1st, 2022 the Vancouver Fraser Port Authority will introduce phase one (of three) of new exhaust gas cleaning systems washwater discharge requirements in its jurisdiction after conclusive findings showed negative effects on aqualife and concentrations of metals that exceeded safe thresholds:

Therefore be it resolved that UBCM request the BC government commit to advocate to the federal government on the issue of exhaust gas cleaning systems' acidic wastewater discharge, as part of a comprehensive BC Coastal Marine Strategy; pushing for stronger environmental protections, in line with thriving cruise and cargo waters of our US neighbours, to include preventative measures to stop scrubber dumping from ships and require cleaner fuels be used.

, halt coastal habitat loss, accelerate the completion of a network of marine protected areas to benefit fisheries, biodiversity and the economy, set marine environmental quality objectives from upland activities, and help communities adopt ecosystem-based approaches to manage risks from flooding due to extreme weather events, sea level rise, climate change, and ocean acidification.

ON MOTION, was ENDORSED

R10 Biodiversity Crisis Requires Urgent Species at Risk Protection and Legislation

District of North Vancouver

Whereas British Columbia has the greatest biological diversity of any province or territory in Canada, the most species at risk, and is the only major jurisdiction in Canada without stand-alone Species At Risk legislation;

And whereas only 4 of the 1,336 species at risk recognized by the province are legally protected under the *Wildlife Act*, yet unsustainable land use and extractive development are causing BC's wildlife populations to decrease in abundance, with many species facing extinction;

And whereas the current patchwork of provincial laws and regulations has not effectively prevented species decline or extinction and is not consistent with British Columbia's commitment to enshrine the United Nations Declaration on the Rights of Indigenous Peoples into law:

Therefore be it resolved that UBCM request the Ministry of Environment to urgently enact Species At Risk Protection and Legislation in partnership with First Nations and in a manner that promotes and respects First Nations inherent, Treaty and constitutionally protected rights and interests along with adequate funding, consistent with the United Nations Declaration on the Rights of Indigenous Peoples.

ON MOTION, was ENDORSED

R11 Expediated Provincial Regulation of Single-Use Plastics

City of Burnaby

Whereas in 2019, the Ministry of Environment and Climate Change Strategy published the CleanBC Plastics Action Plan which included the consideration for a provincial ban on single-use plastic items to provide a consistent approach to reducing single-use plastics;

And whereas the authorization of local governments to enact municipal bylaws to ban plastic checkout bags has created inconsistency between municipalities specifically in regards to the minimum fees applied to recycled paper bags and reusable bags;

And whereas the enactment of municipal single-use plastic bylaws is voluntary and thereby creating a patchwork of regulations between neighboring municipalities;

And whereas the federal government's proposed Single-Use Plastics Prohibition Regulations published December 25, 2021 will be registered and in force by the end of 2022; and

And whereas the federal government's proposed Single-Use Plastics Prohibition Regulations do not include replacement fees for single-use plastic items:

Therefore be it resolved that UBCM ask the provincial government to expedite the development of single-use plastic regulations by the end of 2022. ~~and the regulations will not include replacement fees for single-use plastic items, such as cutlery and straws; and where fees may exist, to be collected by the province to remit to local governments for climate action programs.~~

ON MOTION, as amended, was ENDORSED

HEALTH AND SOCIAL DEVELOPMENT

R12 Expanding the Child Care Sector Workforce

City of Burnaby

Whereas access to a quality child care system is key to the health and development of children;

And whereas access to a quality child care system supports families and is key to BC's economic recovery;

And whereas qualified Early Childhood Educators play a critical role in the advancement of a universal child care system;

And whereas qualified Early Childhood Educators deserve to be compensated commensurate with their education and experience, including access to benefits and pension plans:

Therefore be it resolved that the UBCM urge the provincial government to accelerate its Early Care and Learning Recruitment and Retention Strategy including implementation of a publicly funded, competitive and equitable wage grid for Early Childhood Educators that:

- recognizes staff qualifications and experience;
- **creates a barrier-free path with specific supports for those who currently work in the child care sector without formal qualifications (i.e. family licensed childcare) to obtain an early childhood educator (ECE) credential: and**
- provides wages, **benefits, and working conditions** that are competitive with other positions with similar education, experience and responsibilities;

And be it further resolved that the provincial government work with locally-based child care organizations to implement a wage grid that aligns with the business operations and staff compensation plans of these organizations.

And be it further resolved that UBCM urge the provincial government to expand the implementation of 24 hour and extended hour child care centres to improve access to affordable and quality child care;

And be it further resolved that UBCM urges the Ministry of Education and Childcare to support and coordinate engagement and collaboration with local governments interested in

and/or experienced with child care planning and research to inform the strategy of local needs and context.

ON MOTION, as amended, was ENDORSED

**R13 Support for Bereavement Services to be Included in
the BC Mental Health Plan**

City of Port Moody

Whereas BC is currently experiencing a mental health crisis;

And whereas there is a lack of publicly funded and accessible bereavement services for adults, young adults, and youth in our community despite the enormous toll the loss of loved ones has on mental health:

Therefore be it resolved that UBCM call on the Province of British Columbia to include funding for non-profit, publicly accessible bereavement services in the BC Mental Health and Addictions Strategy Plan.

ON MOTION, was ENDORSED

HOUSING

**R14 Expanding BC Manufacturing and Construction of
Climate-Smart Made-In-BC Prefabricated Wood-Frame Housing**

City of Vancouver

Whereas BC is facing both a climate emergency and a housing affordability crisis and one of the most affordable forms of new built single-family and multi-family housing is pre-fabricated wood-frame housing, typically taking one-half the time to construct and costing one-third to one-half the cost of concrete construction;

And whereas BC is in the enviable position of having a supply of second-growth wood that could be utilized for a sustainable value-added industry in the manufacture of Passive House standard, wood-frame pre-fabricated modular housing:

Therefore be it resolved that UBCM urge the Government of British Columbia to enable, support and promote the development of a zero-carbon standard, wood-frame modular housing manufacturing industry in BC, including by modifying the BC Building Code and BC Step Code to enable quicker permitting and approval of prefabricated wood-frame housing and by encouraging BC Housing to utilize BC-produced prefabricated wood-frame housing wherever possible in its projects.

ON MOTION, was ENDORSED

R15 Training of BC Workers in Deep Energy Retrofits and Climate-Smart Construction

City of Vancouver

Whereas BC is facing both a climate emergency and a housing affordability crisis;

And whereas the most affordable housing is that which is already standing, the most affordable of which is aging and in need of climate-smart retrofits which retain embodied emissions, provide resilience in extreme weather and reduce GHGs;

And whereas training workers in deep energy retrofits and construction of deeply affordable climate-smart housing, including installing solar panels, solar hot water systems and heat pumps, would help alleviate currently long installation and construction wait-times and enable a faster pace of construction of climate-smart buildings and energy retrofits needed to achieve our climate emergency goals:

Therefore be it resolved that UBCM urge the Government of BC to increase support and funding for trades training programs in deep energy retrofits, including installing solar panels, solar hot water systems and heat pumps, and training in the construction of climate-smart buildings including mass timber, Passive House standard and pre-fabricated net-zero-energy wood-frame modular buildings.

ON MOTION, was ENDORSED

R16 Increasing Provincial Incentives for Installing Solar (PV) Panels and Solar Hot Water

City of Vancouver

Whereas the Province's CleanBC Roadmap to 2030 and BC Hydro's Five-Year Electrification Plan, both released in the fall of 2021, promote rebates to purchase electric heat pumps that incentivize British Columbians to switch from using fossil fuels to hydro-electricity to heat their homes and hot water, thus mitigating climate change by reducing GHGs;

And whereas there are no equivalent incentives for home and building owners to increase their own supply of renewable energy or to reduce the demand for hydro-electricity, both of which will become increasingly important for climate resiliency as BC Hydro has estimated it has sufficient supply of electricity only until 2030;

And whereas rebates for home and building owners to install solar hot water systems and solar (photovoltaic) panels would increase the supply of clean energy as well as reduce energy costs for families and businesses both of which increase climate resiliency:

Therefore be it resolved that UBCM request that the Government of BC pursue as quickly as possible adding financial incentives, including increased feed-in-tariffs, for home and building owners to install solar (photovoltaic) panels and solar hot water systems;

And be it further resolved that UBCM request that the Government of BC modify the BC Building Code, and include in a future BC Existing Buildings Alterations Code, specifications, including design and placement standards, and load-bearing requirements, for solar (photovoltaic) panels and solar hot water systems.

ON MOTION, was ENDORSED

SELECTED ISSUES

R17 Beyond GDP: A Wellbeing Framework in British Columbia District of North Vancouver

Whereas Gross Domestic Product (GDP) was never intended to be used as an indicator of a society's health or wellbeing, does not reflect Indigenous values, does not account for the health of natural systems which underpin all life, and does not account for harmful externalities including pollution and climate change impacts;

And whereas the British Columbia Assembly of First Nations recommended that the province adopt a Wellbeing Framework in British Columbia in the 2020 report 'Centering First Nations Concepts of Wellbeing toward a GDP-alternative Index in BC';

And whereas 82% of Canadian respondents felt that measures beyond economic growth such as health and safety, access to education, access to clean water, time for extracurricular and leisure activities, life satisfaction, social connections, and equality of access to public services are important to their day-to-day life:

Therefore be it resolved that UBCM request the Ministry of Finance, Ministry of Jobs, Economic Recovery and Innovation, and all relevant Ministries to work in partnership with Indigenous peoples, including the British Columbia Assembly of First Nations, to transform the current Gross Domestic Product economic framework in BC into a Wellbeing Framework which centres Indigenous values, includes the health and wellbeing of all people and all species, and includes the health of natural systems which underpin all life.

ON MOTION, was ENDORSED

PART 4 – RESOLUTIONS OFF THE FLOOR OF THE CONVENTION

OF1 Beyond GDP: Maternity and Parental Leave to the UBCM Council and Remuneration Guide

District of Squamish

Whereas the LGA and CC do not provide maternity and parental leave rights for elected officials;

And whereas the absence of maternity and parental leave for local government elected officials unless a policy is specifically adopted by a local government specifically disadvantages young and female candidates for office and hence is a systemic barrier to attracting more diverse and representative candidates to local government.

Therefore be it resolved that UBCM update its Council and Board Remuneration guide to included recommended minimum requirements for maternity and parental leave for elected officials in BC following the birth or adoption of a child.

ON MOTION, was ENDORSED

OF2 Tying Carbon Capture to Fuel Sold

City of Port Moody

Whereas carbon-capture technology is reaching commercial scale viability;

And whereas vehicle electrification is a slow process with technological limits for special applications;

Therefore be it resolved that the federal and provincial governments be urged to consider tying fossil fuel taxation to capturing and sequestering the carbon release associated with the fuel sold.

NOT ADMITTED FOR DEBATE

OF3 MMIWG2S Call for Justice

District of North Vancouver

Whereas the MMIWG2S Calls of Justice applies to the municipal government;

Therefore be it resolved that the LMLGA and UBCM support the Calls for Justice from the MMIWG2S report.

ON MOTION, was ENDORSED
